POSITION OVERVIEW

BC Ferries is seeking a Fleet Technology & Human Performance Co-op to join our Fleet Technology & Human Performance team. Understand the mentorship of the Senior Shore Captain, Fleet Technology; you support the development of a technical implementation plan to address new requirements through the introduction of new Transport Canada Vessel Construction & Equipment Regulations. You are self-starter and possess strong understanding of vessel operations and marine operations. During your work term, you will gain valuable knowledge on the daily management of a major Canadian marine operator like BC Ferries, and become familiar with Transport Canada Regulations, and different vessels standards operating procedures and fitted equipment systems.

RESPONSIBILITIES

- Provide support with the development of a technical implementation plan to address BC Ferries facing new requirements through the introduction of the new Transport Canada Vessel Construction & Equipment Regulations
- Assess current fleet status to identify compliance gaps
- Draft plans/templates/checklists for identified gaps to assist vessels with compliance
- Create roll-out scheduling plan to monitor and track implementation across fleet

REQUIREMENTS AND QUALIFICATIONS

- Successful candidate must have completed at least three years of post-graduate Master's Degree (M. Eng.) in Naval Architecture and Marine Engineering or in Marine Management;
- Ability to work independently; able to work effectively with internal and external stakeholders;
- Proficient in Microsoft applications such as Word, Excel, PowerPoint and Outlook;
- Excellent written and verbal communication skills with the ability to communicate effectively and in a friendly and professional manner;
- Previous marine work experience is preferable;
