**MASTER'S DEGREE** 

# MARINE STUDIES

**AQUACULTURE** 

#### ON CAMPUS AND ONLINE

The Marine Institute's Master of Marine Studies (Aquaculture) focuses on strategic planning, decision-making, and management for aquaculture organizations. This program will harness the power of your expertise to stand out as an aquaculture managerial candidate in your organization and advance in your career.

#### **ADMISSION REQUIREMENTS**

Admission is limited and competitive. To be considered for admission to the program, an applicant will normally possess a relevant second-class or better undergraduate degree (cumulative grade point average  $\geq 2.75/4$ ) from a university of recognized standing.

Email: recruitment@mi.mun.ca

**Tel:** 1-800-563-5799 or 709-778-0543

This document is for reference only. Follow the University Calendar for descriptions and regulations for your program. The information provided here is subject to change. The University Calendar is the final authority on university and program regulations.

#### **TO APPLY**

The application for admission or readmission is submitted online.

Applicants who are new to Memorial University should follow the application instructions at <a href="https://apply.mun.ca/">https://apply.mun.ca/</a>

Current and returning applicants should apply using the Admissions menu within the Memorial Self-Service at https://apply.mun.ca/

#### **TUITION AND FEES**

For tuition and fees information please visit: mun.ca/become/graduate/tuition-fees-and-funding/

#### **APPLICATION DEADLINES**

#### **FALL ADMISSION**

### **JUNE 15**

Please note we are not accepting applications for Fall 2023 admission to the Master of Marine Studies (Aquaculture). Applicants with Advanced Standing will be considered for the Winter 2024 semester and applicants without Advanced Standing will be considered for the Fall 2024 semester.

#### **PROGRAM STRUCTURE**

This course-based program consists of 36 credit hours of course work and a 12-week internship that provides theoretical, intensive hands-on and practical components, as well as applied management perspectives in the aquaculture field. The degree may be completed in six semesters on a full-time basis. The first six courses are delivered initially on campus and move online as students progress through the program.

Advanced students who graduated from the Marine Institute's former Advanced Diploma in Sustainable Aquaculture in the last ten years and have a minimum of at least one year of relevant professional work experience, may be granted advanced standing for select courses.
