

Fall Scholarships:

Algoma Central Corporation Scholarship

This scholarship was established by Algoma Central Corporation. Algoma is a leading Canadian shipping company, owning and operating the largest Canadian flag fleet of dry-bulk carriers and product tankers operating on the Great Lakes – St. Lawrence Waterway. Algoma operates self-unloading dry-bulk carriers, gearless dry bulk carriers and product tankers. The Company is a leader in dry-bulk and liquid bulk transportation focused on meeting the special needs of customers that ship products on the Great Lakes and St. Lawrence Waterway.

Algoma's dry-bulk fleet includes vessels of differing sizes and configurations, providing flexible shipping options for customers. Two scholarships will be awarded annually to fulltime students beyond first year at the Marine Institute, one in the Nautical Science Program and one in the Marine Engineering Program. Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland. Initial preference will be given to students who have completed a work term with Algoma with secondary preference given to a high-achieving student in each of the two programs. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Andrew Baker Memorial Scholarship

This scholarship is given in memory of a former student, Andrew Baker, and is awarded to a student in second year of the Marine Engineering Diploma of Technology program. The scholarship will be awarded based on the student's performance in first year Communication Skills courses.

April Arnott Memorial Scholarship

This scholarship was established by the Human Resources Department at Memorial University. The scholarship will be valued at a portion of the interest on the endowment and will be awarded annually. To be eligible, candidates must be enrolled full-time in the third year of the Marine Environmental technology program.

Candidates can be nominated by the students in the Marine Environmental Technology class, and nomination forms are available in the Student Affairs office at the Marine Institute. Final selection will be made by the Marine Institute Scholarship Committee with first preference given to candidates of any age who has demonstrated academic ability, high energy and compassion toward others.

Atlantic Towing Scholarship

Atlantic Towing is part of the J. D. Irving Group of Companies with operations including servicing and development in the offshore industries off Newfoundland and the Maritime Provinces of Canada. The company has had a long-standing relationship with the Memorial University Fisheries and Marine Institute working as a key partner in work term placement and graduate employment of our seafaring students. The scholarship will be awarded two times per year, one scholarship in the Fall and one in the Spring scholarship ceremony.

The Fall scholarship recipient will be a Nautical Science Student who has completed their first year - students must meet the general scholarship eligibility criteria and must be a resident of New Brunswick, Nova Scotia, Prince Edward Island or Newfoundland and Labrador. Initial preference for both scholarships will be given to students who have completed a work term with Atlantic Towing, but if that criteria cannot be met the scholarship will be awarded based on the above criteria, but excluding work term location.

Blackwood Family Scholarship

This Scholarship was established by a generous donation from Glenn Blackwood, former Vice-President, Memorial University (Marine Institute). Glenn led the Marine Institute for 16 years. During this time, the Institution experienced transformative growth, including the creation of the School of Ocean Technology and two research centres, as well as new graduate programs, including the Marine Institutes first PhD programs, and The Launch in Holyrood. Valued at a portion of the income on the endowment, it will be awarded annually to a student in the second year of the Diploma of Technology in Nautical Science at the Marine Institute. Preference will be given to a student who is from a rural community in Newfoundland and Labrador. The recipient must meet the minimum academic requirements for scholarship standing as defined by Memorial University of Newfoundland. This Scholarship will be awarded by the Marine Institute Scholarship Committee.

Canadian Association of Prawn Producers Scholarship

This scholarship will be awarded to a maximum of 3 students who are entering the Marine Engineering Diploma of Technology program who are Canadian citizens. This scholarship is renewable for up to 3 years at a value of \$3000 per year. Students seeking renewal of the scholarship must remain in scholarship standing at the Institute.

Captain Michael J. Simmonds and Arthur Simms Memorial Scholarship

This Scholarship was established by Captain Rex Simmonds and his wife Mrs. Paula (Simms) Simmonds in memory of their fathers, two gentlemen who had a long association with the shipping and fishing industries. Captain Michael J. Simmonds spent a lifetime on the water; he first skippered vessels around Newfoundland and Labrador for 26 years and then went on to pursue a career in the fishery. Mr. Simms was engaged in the fishery for 40 years.

This scholarship is awarded by the Marine Institute Scholarship Committee and presented at the Marine Institute Fall scholarship ceremony to a student in the Marine Studies (Marine Spatial Planning and Management) Master's Degree, and is based on entrance standing. Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland.

Captain Norman Small Scholarship

Captain Norman Small was from Moreton's Harbour and was skipper on several International Grenfell Association (IGA) vessels from the 1950s until his passing in 1970, including the Strathcona III, the Maravel and the Albert T. Gould. Perhaps his most famous trip was when he took Helge Ingstad as a passenger on the hospital boat the Albert T. Gould, as Ingstad documented in his 1969 book – Westward to Vinland, The Discovery of Pre-Columbian Norse House-sites in North America.

In 1970, shortly after Captain Small's passing, the IGA featured Captain Small in its newsletter, Among the Deep Sea Fishers, describing a man whom would long be remembered for his kindness and interest in the people who live in northern NL and his innumerable acts of kindness to the members of the staff and station nurses of the many nursing stations along the coast.

The scholarship was made possible through the efforts of colleagues and friends of Captain Small with whom he worked and served for over 15 years as captain with the IGA. This scholarship is awarded to a first year student entering the Institute from the area historically serviced by the IGA.

Captain Peter & Mrs. Olive Parsons Memorial Scholarship

The Captain Peter and Mrs. Olive Parsons Memorial Scholarship commemorates a Newfoundland master mariner who knew the power of the sea and his wife who recognized the value of education. The interest

from the endowment is awarded annually to a student in either the second or third year of the Nautical Science Diploma of Technology Program who is a native Newfoundlander or Labradorian, or whose parents are natives of the province.

Captain Rex Simmonds Scholarship

This scholarship was established by Captain Rex Simmonds and his family to recognize the importance of lifelong learning and the valued relationship that Captain Simmonds has had with the Marine Institute over many years. Captain Simmonds has returned to the Institute for retraining and further certification with a constant curiosity and determination to excel further in his marine career.

This scholarship is established to support and celebrate student success and shall be awarded annually in the Fall to a student in second year Nautical Science, based on academic merit. Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland.

Captain William Ennis Memorial Scholarship

This scholarship in memory of Captain William (Bill) Ennis, a Marine Institute faculty member and prominent Newfoundland fishing captain, is given to a student in the Bachelor of Maritime Studies program who has completed the Nautical Science diploma program at the Marine Institute.

Charles Evans Memorial Scholarship

This scholarship, the yearly interest from an endowment by the family of Charles Evans, a former student of the Marine Institute, is awarded to a student in Nautical Science, upon the recommendations of the Head of the School of Maritime Studies.

Chester and Maude Keeping Memorial Scholarship

This scholarship, in memory of Chester and Maude Keeping who had a long association with both the marine and fishing industries and who valued education highly, is given to a student in either the second or third year of a technology program.

Cyr Couturier Sustainable Aquaculture Scholarship

This scholarship was established by Cyr Couturier as the Sustainable Aquaculture Scholarship in 2004 and renamed the Cyr Couturier Sustainable Aquaculture Scholarship in 2020. An Aquaculture Scientist and the Chair of Aquaculture Programs at the Marine Institute at the Marine Institute and Memorial University for almost two decades, Cyr has received many awards for his contributions to education, research, and development in sustainable aquaculture. He has held numerous positions on volunteer boards related to sustainable rural and economic development across Canada, many times as presidents of organizations that engage in sustainable development of aquatic farming. His most recent appointment has been to the Board of the Kurt Grinnell Scholarship Foundation that enables access to aquaculture education and training for indigenous North Americans. As accomplished as his career has been, one of his greatest achievements is the connection with his students and their successes. He has mentored hundreds of post-graduate students, junior and high school, and adult learners in fisheries, aquaculture, and environmental science programs. Through international projects, he has assisted hundreds of seafood farmers, many indigenous, in their own countries in applying sustainable aquaculture practices to advance their livelihoods and wellbeing. Valued at \$750 each, two scholarships will be awarded annually to full-time students entering the Graduate Diploma in Marine Studies (Aquaculture) program at Memorial University of Newfoundland. The recipients must meet

the minimum academic requirements for a scholarship as defined by the University. Demonstrated financial need may also be taken into consideration. The scholarship will be awarded by the Associate Vice-President (Academic) and Dean of Graduate Studies on the recommendation of the Marine Institute Scholarship Committee.

Daley Scholarship

This scholarship has been established with commitment from Andrew and Christine Daley. The Daley family has a long standing relationship with the Marine Institute. A number of family members are alumni of the Institute and the family's long standing commitment to the provincial fishery has provided opportunity for various training partnerships. Two scholarships will be awarded annually in the Fall scholarship ceremony. One will be awarded to a 3rd year Naval Architecture student and the other to a Nautical Science student.

Donald W. K. Dawe Memorial Scholarship

This scholarship comes from the yearly interest of a trust fund donated by the family, friends and associates of the late Donald W. K. Dawe, Q.C., the first chairman of the Board of Governors of the College of Fisheries, Navigation, Marine Engineering and Electronics. It will be awarded annually to a deserving student who has successfully completed at least one year at the Institute. Preference may be given to a student from rural Newfoundland and Labrador.

Donald W. K. Dawe Scholarship

This scholarship is awarded to a student who plans to continue his/her studies at the Institute.

Dr. C. R. Barrett Scholarship

This scholarship, the yearly interest from an endowment donated by Dr. C. R. Barrett on his retirement as President of the College of Fisheries, Navigation, Marine Engineering and Electronics, will be awarded to a deserving Diploma of Technology student.

EXXON/Mobil Oil Canada Scholarship

This endowed scholarship was established in 1988. Valued at a portion of the income on the endowment the scholarship will be given annually to a student at the Marine Institute and will be awarded based on academic performance. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Fisheries Council of Canada Conference Scholarship

This Scholarship was established by a generous donation from the Fisheries Council of Canada though funds collected at their annual conference. Valued at \$1000, the Scholarship will be awarded to a graduate student (masters or PhD) in Fisheries Science (Stock Assessment) program at the Fisheries and Marine Institute of Memorial University of Newfoundland. The recipient must meet the minimum academic requirements for scholarship standing as defined by the University. The Scholarship will be awarded by the Associate Vice-President (Academic) and Dean, Graduate Studies on the recommendation of the Marine Institute's Scholarship Committee.

Flight 491 Legacy Scholarships

This scholarship is the yearly interest from an endowment thanks to investment from the Newfoundland and Labrador Oil and Gas Industries (NOIA), The Canadian Association of Petroleum Producers (CAPP), and the St. John's Oil Field Technical Society (OTS). Awarded to a student in the first year of a Diploma of Technology program.

Flotilla '97 Legacy Scholarship

In 1997 a flotilla of pleasure boats sailed from Toronto to St. John's to commemorate the 500th anniversary of Cabot's landing in 1497. The members contributed to a fund to establish this endowed scholarship to assist a student studying in the area of Marine Environment. This scholarship, the legacy of this 1997 commemorative flotilla, is presented to a student entering the Bachelor of Technology Program. Preference shall be given to students from Marine Environmental Technology.

Harbour Grace Shrimp Company Bridge Watch Scholarship

This Scholarship was established by the Harbour Grace Shrimp Company Limited, a private company in the commercial fishery with a northern shrimp offshore fishing license for operation on the east coast and more northern waters of Atlantic Canada. The company is also involved in a partnership arrangement of another northern shrimp offshore fishing license with indigenous partners. The company further owns east coast commercial fishing quotas and has access to a number of different fish species and vessel licenses. The company promotes business in the wider community by encouraging technology transfer and partnership arrangements through product and market development for future generations.

Two scholarships will be awarded by the Marine Institute Scholarship Committee to students enrolled fulltime in the Bridge Watch Technical Program at the Marine Institute, one awarded in the Fall semester (an entrance scholarship) and one in the Winter semester (awarded based on performance in the Fall semester). Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland. The Scholarship will be awarded by the Marine Institute Scholarship Committee.

Harbour Grace Shrimp Company Marine Engineering Scholarship

This Scholarship was also established by the Harbour Grace Shrimp Company Limited. Two scholarships will be awarded to students enrolled fulltime at the Marine Institute, one awarded in the Fall semester and one in the Winter semester. First priority will be for a student in the Marine Engineering Technology Program, second priority is the Marine Engineering Systems Design Program. Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland. The Scholarship will be awarded by the Marine Institute Scholarship Committee.

Harbour Grace Shrimp Company Women in Nautical Science Scholarship

This Scholarship was also established by the Harbour Grace Shrimp Company Limited. Two scholarships will be awarded to female students enrolled fulltime and beyond first year in the Nautical Science Program at the Marine Institute, one awarded in the Fall semester and one in the Winter semester.

Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland. The Scholarship will be awarded by the Marine Institute Scholarship Committee.

Hebron Women in Science & Engineering Scholarship

This scholarship program was created by a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Scholarships will be awarded to female students who are enrolled in full-time or part-time studies at any Campus of Memorial University of Newfoundland who are majoring in engineering, the geosciences, environmental science or chemistry.

Preference will be given to students with demonstrated financial need. Where possible at least one scholarship will be awarded to a student in her first year of study. For students at the St. John's or Grenfell

Campus the awards will be granted by the Senate Committee on Undergraduate Scholarships, Bursaries and Awards upon recommendation of the appropriate Dean or Department Head. The Marine Institute student awards will be granted by the Marine Institute Scholarship.

Heber Bowering Memorial Scholarship

This scholarship is awarded to a student studying engineering technology at the Marine Institute and is valued at a portion of the income on the endowment.

Hibernia Management and Development Company Ltd. Scholarship

This scholarship was originally established in 1997 and endowed in 1998 by the Hibernia Management and Development Company Ltd. (HMDC) as part of its ongoing commitment to enhance educational opportunities for students in areas related to the offshore petroleum industry.

This scholarship is tenable at the Marine Institute and is awarded annually by the Marine Institute Scholarship Committee to one or more (one female student and one male student) in either a second or third year Marine Environmental Engineering Technology program, based on academic performance. The candidates must be of scholarship standing, but consideration may also be given to financial circumstances.

J.J. Uglund Memorial Scholarship

Valued equally at a portion of the income on the endowment, The J. J. Uglund Memorial Scholarship, will be awarded to one marine engineering student and one nautical science student. The J.J. Uglund Memorial Scholarship is for first-year MI students and is renewable for one year if scholarship standing is maintained.

Jane Simoes Ré Memorial Scholarship

This endowed memorial scholarship was established from a gift from Captain José M. Simoes Ré, husband to Jane Simoes Ré. Originally from Portugal, Captain José M. Simoes Ré has had a long standing relationship with the Marine Institute as an instructor in the School of Maritime Studies, teaching various levels of students enrolled in both traditional and industry programs. Earlier, he studied at the College of Fisheries (a predecessor of the Marine Institute).

Originally from Newfoundland, Jane Simoes Ré (née Kennedy) was a grade school teacher. This scholarship is established as a testament to Jane's passion for education and for her support of her husband's teaching career at the Marine Institute. Valued at a portion of the income on the endowment, the scholarship will be awarded annually to a student enrolled in their final year of a Nautical Science program at the Marine Institute based on academic performance in the program's second year of study.

John N. Barrett Scholarship

This scholarship, the yearly interest from an endowment to be awarded to a deserving diploma student who plans to continue his/her studies at the Institute, was donated by Dr. C. R. Barrett in memory of his father.

Judith Bobbitt Memorial Scholarship

The Judith Bobbitt Memorial Scholarship is named after Judith Bobbitt, a physical oceanographer with a B.Sc. (Honours) in Physics from Sir George Williams University (now Concordia) and a M.Sc. from the Marine Science Centre of McGill University. Judith was a leader and an inspiration to women. She was a visionary in oceanography and oil and gas, and spent her final years searching for a cure for cancer. Her company Oceans Ltd. built a reputation for providing ocean research and analysis services in the areas of physical oceanography, marine weather forecasting and environmental effects monitoring.

This Scholarship was established by the Canadian Women in Ocean Industries Leadership (CWOIL) through funds raised at their annual conference. Valued at \$1,000, the Scholarship will be awarded to two full-time undergraduate students in any year of study who self-identify as female at the Fisheries and Marine Institute of Memorial University of Newfoundland. The recipients must meet the minimum academic requirements for scholarship standing as defined by the University. The Scholarship will be awarded by the Marine Institute Scholarship Committee.

Keith R. Kirby Scholarship

Endowed scholarship to be awarded annually to a deserving Intermediate Student in Nautical Science of high academic achievement and who is recommended as having a commitment to improving safety in the marine environment.

Marine Atlantic Scholarship

This Scholarship was established by Marine Atlantic Inc. to support students who will be entering the marine industry and aims to foster interest in this industry from equity-deserving groups. Valued at \$2,000 each, four (4) Scholarships will be awarded annually to students at the Marine Institute of Memorial University of Newfoundland. Two (2) Scholarships will be awarded to students in either the second or third year of the Nautical Science program and two (2) Scholarships shall be awarded to students in either the second or third year of the Marine Engineering program. Preference will be given to students who self-identify as female, or as gender-diverse, or as a Black or racialized person, Indigenous, or people with a permanent disability. Students can demonstrate their Indigenous identity through provision of a membership card and by providing a letter from a leader in their Indigenous community (for example, an elder or local leader) that they are claimed by their Indigenous community. Three (3) Scholarships (two (2) in Nautical Science and one (1) in Marine Engineering) will be awarded during the Fall ceremony, and one (1) Scholarship (in Marine Engineering) will be awarded during the Winter ceremony. The recipient must meet the minimum academic requirements for scholarship standing as defined by the University. The Scholarship will be awarded by the Marine Institute Scholarship Committee.

Marine Institute Advanced Diploma Entrance Scholarships

These scholarships are awarded to students entering the technology program based on high school academic performance.

Marine Institute Entrance Scholarships

These scholarships are awarded to students entering the Marine Institute based on high school academic performance.

Marine Institute Faculty Association Fall Scholarship

The Marine Institute Faculty Association Fall Scholarship was established in 2022 and is an endowed scholarship made possible through a second, collective gift from Marine Institute faculty that was raised over many years while faculty were members of the original Marine Institute Faculty Association. Most of the original contributing faculty members have since become Marine Institute retirees. The first collective gift in 2016 provided for an endowed scholarship under the association's name that is awarded in the winter semester.

Valued at a portion of the income on the endowment, this second scholarship will be given annually at the Marine Institute Fall scholarship ceremony to a fulltime student with scholarship standing studying beyond first year in a three or four year program at the Marine Institute. The recipient must meet the minimum

academic requirements for scholarship standing as defined by Memorial University of Newfoundland. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Marine Institute Scholarship

This scholarship may be awarded to students in any program eligible for scholarships.

Middle Cove Memorial Scholarship

This scholarship, established from the interest of an endowment by members of the Canadian Coast Guard in the Newfoundland and Maritime Regions in memory of three colleagues who lost their lives in the line of duty, is awarded annually to a second or third year student in Maritime Studies.

Mr. Justice Fintan J. Aylward Scholarship

This scholarship, the yearly interest from an endowment established by the Honourable Mr. Justice Fintan J. Aylward, Q.C., (a former Chairman of the Board of the College of Fisheries, Navigation, Marine Engineering and Electronics and of the Marine Institute) is awarded to a student entering the first year of a diploma program at the Institute who has demonstrated an interest in marine law or marine safety.

Neil Gall Memorial Leadership Scholarship in Ocean Technology

Neil Gall was a natural relationship builder with a thriving career in oceans related research, development and policy. He was Executive Director of the national research network, MEOPAR (Marine Environmental Observation Prediction and Response Network). He also had been Executive Director of “Bridges”, an ocean technology marketing initiative at the Marine Institute. Earlier, as Manager of Ocean Technology Partnerships he played a key role in the development and implementation of the Government of Newfoundland and Labrador’s ocean technology development strategy, “Oceans of Opportunity,”.

Neil Gall was a charismatic man with a sharp mind, a quick wit, and a warm heart that he shared with his loving family and extended circle of colleagues and friends. This memorial scholarship was established from a collective gift from his family, friends, colleagues and employers. Valued at a portion of the income on the endowment the scholarship will be given annually to a fulltime student with scholarship standing studying beyond first year in a four year program at the School of Ocean Technology at the Marine Institute.

In awarding this scholarship preference will be given to candidates who have leadership characteristics and have made significant contribution to student and/or community leadership, as demonstrated in a faculty member’s letter of support. Preference will also be given to a student focusing on underwater vehicles. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Ocean Choice International Scholarship

This scholarship is awarded annually to a student entering the Marine Institute.

Oceanex Scholarship

Oceanex is a company with vision to become one of the most successful transportation companies in Eastern Canada. The company has had a long standing relationship with the Marine Institute and Memorial University, working as a key partner in work term placement and graduate employment of seafaring students, and this scholarship reflects the desire to continue to foster this positive relationship.

The scholarships will be awarded in both the Fall and Spring scholarship ceremonies. The fall scholarship recipients will be Nautical Science and Marine Engineering students beyond first year; for the Spring scholarship, preference is for a Marine Engineering student who has completed their second sea phase in the fall semester. Students must meet the general scholarship eligibility criteria and have a superior work term evaluation.

Initial preference for the scholarship will be given to students who have completed a work term with Oceanex, with secondary preference given to a high-achieving student in Nautical Science or Marine Engineering. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Pikalujak Fisheries Limited Partnership Scholarship

This Scholarship was established by the Pikalujak Fisheries Limited Partnership with a commitment of \$5,000 annually. Pikalujak Fisheries Limited Partnership is the owner of a Northern Shrimp Fishing License whose partnership consists of the Nunatsiavut Group of Companies (the economic arm of the Nunatsiavut Government), the Labrador Sea-2004 (owned by Steinar Engeset), and Ocean Prawns Canada Ltd. (owned by Kristian Jensen). The link between Pikalujak Fisheries Limited Partnership and the Marine Institute has developed over the course of the Marine Institute's extensive work in Labrador. This scholarship has been established, reflecting and further fostering the positive relationship between Pikalujak Fisheries Limited, the Nunatsiavut Government and the Marine Institute. Two scholarships of \$1,250 each will be awarded in the fall semester and two scholarships of \$1,250 each will be awarded in the winter semester. Initial preference will be given to a Marine Institute student who is a beneficiary of the Labrador Inuit Land Claims Agreement. Second, third and fourth preference will be given to an indigenous Marine Institute student from Newfoundland and Labrador (2nd), Atlantic Canada (3rd), or Canada (4th).

Professional Fish Harvesters Certification Board Scholarship

The scholarship is awarded to a certified fish harvester or a dependent who is entering the second year of a three-year diploma of technology program.

Raymond Bartlett Memorial Scholarship

This scholarship, the interest from an endowment in memory of a former student, is presented in alternate years to a student in second or third year of the Marine Engineering program or the MOT Engineering program who has demonstrated high academic ability and a strong sense of initiative and perseverance.

Siem Offshore Canada Limited Partnership Scholarship

Siem Offshore operates and manages a safe, environmentally friendly, and technically advanced fleet of offshore support vessels worldwide. Our Canadian operation focuses on the east coast of Canada utilizing highly experienced sailors, a maritime work ethic, and a philosophy of providing a superior service to its customers. The company has developed a relationship with the Marine Institute working as a partner in work term placement and graduate employment of seafaring students.

In an effort to foster the positive relationship between Siem Offshore Canada and the Marine Institute and to expand on its tradition of investing in diverse set of young people entering the marine industry, the company has established this scholarship. The scholarship recipients will be a first-year marine engineering or nautical science students who meet the general scholarship eligibility criteria with first preference to given to female, indigenous and visible minority students in their first year and second preference to female, aboriginal and visible minority students beyond their first year.

Skinner Memorial Scholarship at the Fisheries and Marine Institute

This term scholarship was established by a generous donation from the Estate of Edith and Robert Skinner. Robert Skinner (1920-2008) and Edith Skinner (1922-2010) spent most of their married years living in Pasadena, NL, where they operated a motel as well as two hunting and fishing lodges in Labrador. The Skinners believed strongly in the importance of fisheries and wildlife management and conservation.

One or more scholarships will be awarded annually to an undergraduate student(s) entering full-time studies at the Fisheries and Marine Institute who have graduated from a High School in Western Newfoundland and Labrador (that is west of Grand Falls but including Labrador). The recipient must meet the minimum academic requirements for a scholarship as outlined by Memorial University of Newfoundland, with a preference for students with demonstrated financial need.

St. John's Port Authority Scholarship

This scholarship was established by the St. John's Port Authority to recognize the academic achievements of students studying in the marine fields. Preference shall be given to students in second and third year Nautical Science.

St. John's Rotary Scholarship

Two scholarships shall be awarded to students entering their final year of studies. In selecting candidates for the scholarships, the Scholarship Committee will consider academic achievement, participation in Institute activities, and the demonstration of personal qualities appropriate to the student's chosen field of endeavour.

Teledyne CARIS Scholarship

CARIS software is widely used in the Ocean Mapping program at the Marine Institute. In an effort to further foster the positive relationship between Teledyne CARIS and the Marine Institute, this scholarship has been established. It is awarded upon faculty nomination to a student in the School of Ocean Technology Ocean Mapping Program who is proficient in CARIS software.

Recipients must meet the minimum academic requirements for the Scholarship as outlined by Memorial University of Newfoundland. Teledyne CARIS may also choose to provide additional software support to the recipient. The scholarship will be awarded by the Marine Institute Scholarship Committee.

Toromont Scholarship

This scholarship was established through a contribution from Toromont Cat to the Fisheries and Marine Institute of Memorial University. Toromont Cat was established in 1993 and is a division of Toromont Industries, a publically traded, diversified growth company incorporated in 1963. The company enjoys over 300 machine models and specialized attachments in its product line, a host of allied equipment and technology partners, and varied service and rental options. Toromont Cat's relationship with the Marine Institute spans many years, specifically in its valued industry linkages with Marine Institute alumni. This scholarship is awarded to a fulltime student in the Marine Engineering or Marine Engineering Systems Design program. This scholarship will be given in the fall semester by the Fisheries and Marine Institute Scholarships Committee.

W. Gary Rowe, QC Scholarships at the Fisheries and Marine Institute

These endowed undergraduate scholarships were established through a generous gift from the estate of the late W. Gary Rowe (1944-2010), lawyer, art collector and philanthropist. Mr. Rowe graduated from Memorial University with a Bachelor of Commerce degree and Dalhousie University with a Bachelor of Laws degree before being called to the bar in Newfoundland in 1970. In 1972 he was a founding partner of the firm Chalker, Green and Rowe, which grew to become one of the largest in St. John's with more than 20 lawyers at the time of its merger with the regional firm McInnes Cooper in 2000. Mr. Rowe was appointed Queen's Counsel in 1988.

Valued at a portion of the income on the endowment, one or more scholarships will be awarded annually to students attending the Fisheries and Marine Institute of Memorial University of Newfoundland. Preference

will be given to those with demonstrated financial need. The recipients must have graduated from a high school in Newfoundland and Labrador and meet the academic requirements for a scholarship as defined by the University.

Wayne Dalton Memorial Scholarship

This scholarship in memory of Wayne Dalton is awarded to a student in the second or third year of the Nautical Science or Marine Engineering Technology Program. Preference shall be given to a student from Baltimore High School.

AWARDS AND BURSARIES Fall

Captain Patrick Miller Award

This award was established by the family and friends of Captain Patrick Miller. Captain Miller was a sea captain and well known businessman from Fogo Island. Throughout his 70+ year career within the marine industry he owned and navigated more than 30 vessels. A lifelong mariner he sailed and operated his business in local NL waters as well as along the eastern seaboard of North America. First priority for this award is given to a student who has graduated from high school on Fogo Island and is studying fulltime, and beyond first year, in one of the following Diploma of Technology programs at the Marine Institute: Nautical Science, Naval Architecture, Marine Engineering, or Marine Engineering Systems Design. Second priority for this award is given to a student who has graduated from high school on Fogo Island and is studying fulltime, and beyond first year, in any undergraduate program at the Marine Institute. Should the first and second priority not be able to be met in a given year, the Award can be granted to any student who has graduated from high school in Newfoundland and Labrador and is studying fulltime, and beyond first year, in the Diploma of Technology, Nautical Science program at the Marine Institute. Within each priority, preference will be given to a demonstrated record of active community involvement, volunteer work, helping fellow students and/or service at Memorial University or in their home community. The award is granted on the recommendation of the Selection Committee and will be awarded by the Marine Institute Scholarship Committee.

Flight 491 Legacy Bursary

This bursary is the yearly interest from an endowment thanks to investment from the Newfoundland and Labrador Oil and Gas Industries (NOIA), The Canadian Association of Petroleum Producers (CAPP), and the St. John's Oil Field Technical Society (OTS). Awarded to a student in the first year of a Diploma of Technology program.

Hebron Award

This award was created from a generous contribution from the Hebron Project. The Hebron Project co-venturers are ExxonMobil Canada Properties (operator), Chevron Canada, Suncor Energy, Statoil Canada and Nalcor Energy. Awards will be available to full-time or part-time students, enrolled at any campus of Memorial University of Newfoundland, who have indigenous status, a disability, or who represent a visible minority. Students with a disability should provide supporting documentation (from a medical doctor, psychologist, audiologist, rehabilitation counselor, or other professional who has specific training, expertise, and experience in the diagnosis of this condition).

Students will claim indigenous and visible minority status through self-identification. Of those eligible students, further preference will be given to students who are majoring in engineering, the geosciences, environmental science or chemistry. Normally, at least one award will be granted in each designated area and where possible, at least one award will be granted to a student in his/her first year of study. The Marine Institute student awards will be granted by the Marine Institute Scholarship.

Jamie Klein Memorial Award

Jamie Klein was kind, humble and loving, gracing everyone with his insights and humor. He was a world citizen who was thoughtful, compassionate, and always concerned with the well-being of others. In honor of his memory, this award is established with the hopes of encouraging youth on their own paths to change the world, celebrating students who are going an extra mile during their programs with passion, helping others and sharing knowledge and insight. Jamie took delight in being involved in ocean technology student events with his father Martin Klein, a pioneer in commercial side-scan sonar technology and ocean exploration.

This award at the Fisheries and Marine Institute celebrates a passion for caring for others and a passion for the field of ocean technology - joys that Martin and Jamie enjoyed sharing together. Valued at a portion of the income on the endowment the Award will be given annually to a full time student within the School of Ocean Technology at the Marine Institute in a program dedicated to ocean exploration.

Awarding will be based upon a faculty and/or Marine Institute mentor nomination that highlights student involvement in extra curricular activities related to ocean technology. The nomination letter must identify the student's involvement in the activities and highlight his/her initiative in helping other students succeed. The Award will be granted by the Marine Institute Scholarship Committee.

Kraken Robotic Systems Inc. Dr. Mary Williams Memorial Award in Ocean Technology

This award was established by a donation from Kraken Robotic Systems Inc. in memory of Dr. F. Mary Williams. In her capacity as Director General of the National Research Council Institute for Marine Dynamics, Dr. Williams was a catalyst for innovation in Newfoundland and Labrador and beyond. She embodied the principles of applied research and partnership with the maritime industry. These principles are ingrained in the culture of the Marine Institute, an organization that Dr. Williams collaborated with often, with faculty and staff on Arctic and oceans related projects and research. She was a review committee member integral in moving forward MI's Master of Technology Management Program, a program that was first introduced to MI's program offering in 2010.

One award will be given annually to a student studying beyond first year in a four year School of Ocean Technology program at the Fisheries and Marine Institute of Memorial University. Preference may be given to a female student, recognizing Dr. Williams' passion to support the increased participation of women at all levels in science and engineering. Preference may also be given to a student who demonstrates financial need. This award will be given in the fall semester by the Fisheries and Marine Institute Scholarships Committee.

Moving Forward Together Campaign Award

This award was established by two generous donations as a part of the Moving Forward Together Campaign by the Sisters of Mercy of Newfoundland and the Presentation Sister of Newfoundland and Labrador. Moving Forward Together is a Canada-wide campaign to bring fundamental and lasting change to Indigenous communities in Canada by supporting healing and educational programs.

Valued at \$1800.00, it will be awarded to an undergraduate Aboriginal student at the Marine Institute of Memorial University of Newfoundland, with preference given to a student beyond their first year of studies. The Award is given annually and is renewable for an additional two years. The student must meet the minimum academic requirements for an award as defined by Memorial University. This award will be granted by the Marine Institute Scholarship Committee.

Labrador Scholarship

The Labrador Scholarship, the interest from an award presented to the Institute by Northern Telecom for its distance education program in Labrador, is awarded annually to a student from Labrador who is enrolled in a three-year technology program.

Roy Russell Memorial Bursary

This endowed bursary was established by the family of the late Roy A. Russell in recognition of the interest Mr. Russell had in providing employees with an opportunity to excel in their chosen activity and to achieve new goals. The bursary will be valued at a portion of the income on the endowment and will be awarded annually.

The recipient will be an entrance student enrolled in the first year of any program at the Marine Institute. The eligible student would have graduated from a high school in Newfoundland and Labrador situated off the Avalon Peninsula. The recipient must meet the minimum academic requirements for a bursary as defined by the University. The bursary will be granted by the Fisheries and Marine Institute Scholarships Committee.

The Lieutenant Commander (Retired) Anthony Green Ayre Bursary

This endowed bursary was established from a gift from the Estate of Anthony Green Ayre, who joined the Royal Canadian Navy at the outbreak of World War II and served in the Atlantic and Pacific from 1941-1945. Following the war he was promoted to the rank of Lieutenant Commander and became the Commanding Officer of the Memorial University of Newfoundland Naval Training Division. He was also an area officer of the Sea Cadets and devoted to community service.

Valued at a portion of the income on the endowment, one or more bursaries will be awarded annually to full-time students who meet the academic requirements for a bursary. First priority will be given to a student(s) registered full time in the Bachelor of Maritime Studies Program or the Bridge Watch Technical Certificate. Second priority will be given to a Nautical Science student(s) studying beyond first year.

Science and Technology Fair Marine Institute Award

The Science and Technology Fair Marine Institute Award has been established through monies given to the Marine Institute to support the Institute in fostering participation in fisheries and marine sectors. It will be offered annually to the senior team (maximum of 2 recipients) of a regional science and technology fair project in Newfoundland and Labrador with the most innovative marine and/or fisheries related senior project.

The Award amount will be given upon entrance to the Marine Institute, in the academic year following graduation from high school. The Award is a \$1,000 entrance award for any undergraduate program at the Marine Institute and is renewable in the second semester. This award will be granted by the Fisheries and Marine Institute Scholarships Committee, upon recommendation from the subcommittee of the scholarship committee who judges the senior projects at the science and technology fair.

AWARDS AND BURSARIES Fall Application Based

Altera TEAM Award

Altera TEAM values stand for Trust, Excellence, Accountability and Momentum. With its TEAM values Altera's East Coast Canada team and infrastructure support the Newfoundland and Labrador offshore industry. Altera's operations began in this region in 2015 and the company operates a fleet of three shuttle tankers (Beothuk, Norse and Dorset) with the fourth new build shuttle tanker (Altera Thule) scheduled for delivery in 2022. The Altera TEAM Award will be granted to a student who demonstrates Altera TEAM values and is enrolled fulltime, and beyond first year, in the Nautical Science or Marine Engineering programs at the Marine Institute. Recipients must meet the minimum academic requirements for a scholarship as outlined by the Marine Institute of Memorial University of Newfoundland. The Award will be assigned by the Marine Institute Scholarship Committee, upon recommendation of faculty and a sub-committee of the Marine Institute

Scholarship Committee – the Altera TEAM Award Selection Committee. Applicants must complete the Altera TEAM Award application.

Cenovus Energy Future Leaders Award

This Award was established by Cenovus Energy, a Canadian-based integrated energy company. The Award recognizes the critical role marine operations play in Cenovus' Atlantic Region and its aim is to foster strong leaders who are driven to make positive contributions to Newfoundland and Labrador's offshore industries. The recipient will be granted a financial award and will be given preference for work placement with Cenovus and/or its subcontractors, where Cenovus would sponsor the recipient's Sea Phase II, provided criteria for renewal is maintained. As such, recipients will have the opportunity to work in a variety of marine settings and learn from a range of professionals.

Recipients must be in full time studies in Term 3 of the Diploma of Technology in Nautical Science program at the Marine Institute and meet minimum academic requirements for an award as defined by Memorial University of Newfoundland. The award is renewable for up to three academic terms providing the recipient maintains clear academic standing and providing the recipient is offered, accepts and completes in good standing the Sea Phase II placement with approved Cenovus supply chain partners (Sea Phase placement to be managed by Cenovus and Marine Institute Office of Career Integrated Learning). Preference may be given to applicants who identify as one or more of the following: a woman, an Indigenous person, a person living with disability, or a member of a visible minority (meaning persons, other than Indigenous peoples, who are non-Caucasian in race or non-white in colour). The Award will be granted as described below by the Marine Institute/Cenovus Committee for the Cenovus Energy Future Leaders Award, which will inform the Marine Institute Scholarship Committee of the recipient for financial awarding. Applicants must complete the Cenovus Energy Future Leaders Award application.

Genoa Values Award

Genoa Design International provides production design and 3D modeling services to shipbuilding and offshore industries around the globe. It is one of the most sought-after production design firms in the North American shipbuilding market, and is headquartered in Newfoundland and Labrador. With collaboration as the cornerstone of their work, the team of more than 200, many of whom are Marine Institute alumni, approach every day with a focus on the core values of Put People First, Create Lasting Relationships, Make a Difference, Own It, Live Well, and Never Stand Still. The Genoa Values Award will be granted to two students annually who are enrolled fulltime in the Naval Architecture program or the Marine Engineering Systems Design program at the Marine Institute. The Award will be assigned by the Marine Institute Scholarship Committee, upon recommendation of a sub-committee of the Marine Institute Scholarship Committee – the Genoa Values Award Selection Committee. Applicants must complete the Genoa Values Award application.
