

Publishing Schedule at a Glance

The JOT production team invites the submission of technical papers, essays, and short articles based on upcoming themes. **Technical papers** describe cutting edge research and present the results of new research in ocean technology, science or engineering, and are no more than 7,500 words in length. Student papers are welcome. All papers are subjected to a rigorous peer-review process. **Essays** present well-informed observations and conclusions, and identify key issues for the ocean community in a concise manner. They are written at a level that would be understandable by a non-specialist. As essays are less formal than a technical paper, they do not include abstracts, listing of references, etc. Typical essay lengths are up to 3,000 words. **Short articles** are between 400 and 800 words and focus on how a technology works, evolution or advancement of a technology as well as viewpoint/commentary pieces. Submissions and inquiries should be forwarded to info@thejot.net.

»» Upcoming Themes

All themes will be approached from a Blue Economy perspective.

Summer 2021	Smart fisheries
Fall 2021	AI and machine learning in ocean monitoring
Winter 2021	Ocean pharmaceuticals
Spring 2022	Ocean-based carbon removal
Summer 2022	Marine archaeology
Fall 2022	Climate change and the oceans
Winter 2022	Ocean technology
